

RYAN OZORA

Microsoft SQL Server Database Administrator

Jakarta, Indonesia | ryan.ozora@gmail.com | +6287823101278 | LinkedIn: [Ryan Ozora](#) | Profiles: [Profiles](#)

Professional Summary

Experienced Microsoft SQL Server Database Administrator with 5+ years of experience managing enterprise database environments. Specialized in High Availability (including AlwaysOn Availability Group, Log Shipping, Database Mirroring, and SQL FCI), Performance Tuning, Disaster Recovery, SQL Server Migration, and Automation. Experienced supporting 10+ enterprise customers including banking, financial services, government, and other enterprise customers.

Core Competencies

Category	Skills
Database Administration	Microsoft SQL Server, Backup & Recovery method, HA/DR, AlwaysOn Availability Group, Log Shipping, Database Mirroring, SQL FCI / Failover Cluster Instance, Database Maintenance
Performance Tuning	Blocking and Deadlock analysis, Query Optimization, Indexes, Partitioning and Filegroups management
Infrastructure	Windows Server, Failover Cluster, Cloud Services (AWS, Azure, GCP)
Automation	Python, PowerShell, T-SQL
Reporting	SSRS, Power BI Report Server

Professional Experience

2023 – Current — Jakarta, Indonesia <u>Mitra Integrasi Informatika</u> Technical Consultant (SQL Server)	- Managed more than 50+ production SQL Server instances across enterprise environments. - Designed and Architected 40+ production SQL Server instance with High Availability, including AlwaysOn, FCI, Log Shipping, and Database Mirroring - Resolved critical SQL Server Business-critical databases incidents with minimal downtime - Optimized query performance, reducing execution time for critical workloads
2022 – 2023 — Bandung, Indonesia <u>Xtremax Pte Ltd</u> Data Engineer	- Design and Architect robust data pipelines, which includes ETL Processes - Design and manage data warehouses in Cloud, including AWS, Azure, and GCP - Optimize and review ETL execution time for data pipelines - Build Power BI Dashboard from data warehouses
2020 – 2021 — Jakarta, Indonesia <u>Toyota Astra Motor</u> Business Intelligence Engineer	- Build end-to-end monitoring dashboard using Microsoft SQL Server as Data Mart with ETL jobs, Power BI with DAX as Live Dashboard - Maintain Power BI Dashboard daily data ingestion and parameter adjustments

2018 – 2020 — Bandung, Indonesia <u>Laboratory of Information System</u> <u>and Decision (LSIK) Bandung Institute</u> <u>of Technology (ITB)</u> Research Assistant	- Supported academic research in decision systems, data visualization, and analytics using Python, R, SQL, C++, and Excel VBA.
---	--

Certifications

- Microsoft Certified: Azure Solutions Architect Expert
- Microsoft Certified: Azure Database Administrator Associate
- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Azure Data Engineer Associate

Education

2016 – 2020 Institut Teknologi Bandung (ITB) <i>(Bandung Institute of Technology)</i>	Bachelor's Degree in Industrial Engineering Graduated with Cum Laude Distinction GPA: 3.74 / 4.00
2021–2023 Universitas Padjadjaran <i>(Padjadjaran University)</i>	Master's Degree in Business Law Graduated with Very Satisfactory Distinction GPA: 3.59 / 4.00

Technical Skills

Databases	Microsoft SQL Server, Azure SQL, MySQL, Backup Compression, Maintenance Plans
Operating Systems	Windows, Windows Server, Windows Failover Cluster
Cloud	Azure, AWS, GCP
Programming	PowerShell, T-SQL, Python
Tools	Power BI, Git,

Languages

Indonesian: Native

English: Professional Level

Selected Projects

SQL Server AlwaysOn Deployment • SQL Server 2016 - 2025 • 2 to 4-nodes Windows Failover Cluster • Automatic Failover • Zero data loss • Banking/Governmental Environment	SQL Server Performance Tuning • Identified blocking chain • Optimized indexes • Reduced query execution time	SQL Server Migration • SQL Server 2012 → SQL Server 2022 • Production environment • Minimal downtime
